

# COMMONWEALTH

**EXCELLENCE IN EDUCATION FOR ALL STUDENTS**

## Educating all Students!

Commonwealth Elementary School is a special place to learn! At our school, we take great pride in assuring all students receive the very best educational opportunities that foster academic, social, and emotional growth. Students at Commonwealth are diverse. Within our distinguished student body, we service students with exceptional talents, diverse cultures, additional language demands, and special needs. As such, our staff has pledged to collaborate as a team for the goal of working towards the same school-wide commitments, sharing and implementing best educational strategies and practices, and partnering with our community to educate the whole child. We believe in our students and know that we make a great difference in their achievements and accomplishments. It's our mission to educate all of our students to the level of excellence!

## Future College Graduates!

Each school day, parents send us their beloved children with the intent of ensuring them an excellent education for a better tomorrow. Each morning, Commonwealth students are reminded of our commitment to them and their futures. "Good Morning Commonwealth Tigers and Future College Graduates!" is not just an announcement, it's a way of learning and teaching for us all!

Learning Together for the Benefit of Students and Families
