

School Illness Guidelines

The following guidelines have been developed to help you determine when your student needs to stay home or go home from school

In most situations, any student who develops new, unexplained symptoms should not return to campus until it is clear that symptoms are mild and improving or are due to a non-infectious cause. For some instances a healthcare provider documentation may be requested.

<p>COVID-19 Positive Please notify the school office if your student tests positive</p>	<ul style="list-style-type: none"> • Stay home for at least 5 days after START OF SYMPTOMS (day 0) or after the date of first positive test (day 0) if no symptoms. • Student may return on day 6 if: <ul style="list-style-type: none"> -Symptoms are not present or are mild and improving, AND -Fever free for 24 hours without the use of fever-reducing medication • If fever is present, isolation should be continued until 24 hours after fever resolves • After a student has ended isolation, if their symptoms recur or worsen, get them tested again and if positive, restart isolation at Day 0. After ending isolation, persons are encouraged and should consider wearing a mask and not removing their mask sooner than Day 10
