

Social Studies Units 1 and 2 Study Guide

Know all the information below before the test on Thursday, **October 1**. Use your textbook and all the materials in your social studies folder.

- 1) Know what a **community** is and some ways communities are the same
(pages 6-7 in your text)
- 2) Know what a **citizen** is what a citizen does (text pages 8-9)
- 3) Know about **laws** and how they keep communities safe (text pages 8-9)
- 4) Know what **population** means (text page 16)
- 5) Know the **3 types of communities** and be able to describe characteristics of each: **urban, suburban, and rural** (text pages 17-19)
- 6) Know these terms (Language of the Discipline): **landform, erosion, geography, plain, and valley** (text pages 26-27)
- 7) Know the reasons why people would want to live near oceans, rivers, and lakes (text pages 28-29)
- 8) Study the **map on page 37** and be able to answer questions about it.
Example: Which landforms are east of the Central Plains? (Appalachian Mountains, Atlantic Coastal Plain)
- 9) Know what **renewable, nonrenewable, and flow resources** are and be able to provide examples of each (text pages 44-45)
- 10) Understand the importance of **conserving natural resources** (text page 47)
